t2 Quick Guide to ESDGC
The Seven Key Themes of ESDGC

**Consumption & Waste**
Renewable and non-renewable resources; energy, food and water; sustainable design and sustainable materials; the waste hierarchy; ecological footprint, carbon footprint; supply chains, transport; the rights of future generations to a quality of life; advertising; peer pressure; quality of life versus standard of living; reassessing values; resolving conflicts over resources.

**What you can do to make a difference**
- Take care of your belongings
- Use resources carefully
- Dispose of used resources responsibly

**Climate Change**
The scientific evidence relating to climate change; the greenhouse effect; global warming; the causes of climate change; the potential impacts and uncertainty of predictions; the precautionary principle; preventative and adaptive responses; the impact of individual and collective actions; ways of bringing about change; the impact on future generations.

**What you can do to make a difference**
- Recognise the importance of saving energy
- Begin to understand the causes of concern over, and implications of, climate change
- Believe you can make a difference through your actions and behaviour

**Wealth & Poverty**
Levels of wealth and poverty; the gap between rich and poor locally and globally; basic needs; quality of life; the interdependent causes and impacts of poverty; migration; how wealth is created; perceived and real value of goods, services and relationships; globalisation; Fairtrade, the right of future generations to access resources.

**What you can do to make a difference**
- Develop opinions about exploitation & poverty
- Understand how goods are produced & traded & what Fairtrade/Fairtrade is and why it's important
- Recognise the needs of future generations to meet their basic needs

**Health**
The importance of caring for oneself and caring for others; the relationship between health and quality of life; nutrition and sources of food; the impact of drug abuse on individuals and others; the value of different relationships including family, sexual and professional; the impact of the environment on health; the importance of access to clean water.

**What you can do to make a difference**
- Recognise the need for personal hygiene
- Recognise your responsibilities to keep yourself and others safe
- Recognise the importance of eating properly and exercise

**Choices & Decisions**
Democratic and non-democratic decision making at international agreements; how to participate in decision making at different levels; how to present a point of view; the interconnected consequences of making decisions; the role of governments; how to be a participant in civil society.

**What you can do to make a difference**
- Participate in all aspects of your learning, helping to make decisions
- Express and show respect for yourself and others and their views
- Appreciate that your personal actions have consequences

**Identity & Culture**
Personal and regional histories; Welsh heritage and language; how identities and culture influence actions; what constitutes a community; the impact of other cultures on Wales; challenge stereotypes; recognise that people hold different values; recognise and challenge discrimination and prejudice in an appropriate way; peaceful resolution to differences.

**What you can do to make a difference**
- Recognise that discrimination and exclusion is wrong
- Value friends and family
- Respect religious beliefs

**The Natural Environment**
Biodiversity; endangered species; conservation and restoration of habitats; human dependence on ecosystems; the impact of human activity including conflicts on natural environments; gene banks and genetic modification; stewardship of resources and habitats; the role of natural environments in relation to quality of life.

**What you can do to make a difference**
- Develop a sense of awe and wonder at the beauty of landscapes, habitats and living things
- Care for the environment and recognise its importance
- Act to protect biodiversity and local and global environments

**What you can do to make a difference**
- Recognise the importance of saving energy
- Begin to understand the causes of concern over, and implications of, climate change
- Believe you can make a difference through your actions and behaviour
