

Level 3 Senior Healthcare Support Worker

Option 2 - Senior HCSW
(Maternity Support)

DURATION

18

MONTHS

Senior Healthcare Support Workers help registered practitioners deliver healthcare services to people. As an experienced Support Worker, you carry out a range of clinical and non-clinical healthcare or therapeutic tasks under the direct or indirect supervision of the registered healthcare practitioner.

You provide high-quality, compassionate healthcare following standards, policies or protocols and always acting within the limits of your competence. You may work in a range of services e.g. hospital, health or day care unit, birth centre or midwifery led unit; working in partnership with individuals, families, carers and other service providers.

How we deliver this Apprenticeship

This Apprenticeship is delivered on a one to one basis in your workplace by your own dedicated expert Clinical Healthcare tutor.

They will meet with you every month (face to face or virtually) to provide teaching and training to help you develop new knowledge and skills and guide you through the programme.

They will then assess your competence by observing you applying the new skills at work and helping you develop a portfolio of evidence to prove you have met the requirements of the Apprenticeship.

Qualifications included in this Apprenticeship

- Senior Healthcare Support Worker Apprenticeship Standard
- City and Guilds Level 3 Diploma in Healthcare Support

Functional Skills

- Level 2 Functional Skills in English and maths (if required)

Progression

After a period of working and gaining experience, you may be able to work towards an Assistant Practitioner or Nursing Associate post or, providing you meet the entry requirements, apply to university to become a registered healthcare practitioner.

Programme content

The knowledge and understanding you will develop

Health and wellbeing

- How to carry out routine and complex clinical or therapeutic tasks delegated to you, the care plans and delegation protocols used in your organisation
- The types of information you need to collate when obtaining a client history, ways to record and share it
- The indicators for good physical health and mental health in relation to the demographic of individuals you are working with; the importance of fluids, nutrition and food safety; ways to signpost individuals to public health interventions or other services where appropriate
- How to support a person's comfort and wellbeing, the signs of a person whose health and wellbeing is deteriorating or who is experiencing pain or discomfort
- The main types of mental ill health and their impact on people's lives; indicators for mental capacity, the importance of early diagnosis in relation to cognitive issues; the possible signs of mental ill health and learning disability in people
- Why external factors, adapting from childhood to adulthood, depression, delirium or the normal ageing process may be mistaken for mental ill health; how changes in cognition can impact health and wellbeing; how to report changes and deterioration; how to support others to report changes and deterioration, how to escalate changes and deterioration
- How to perform basic life support and use adjuncts to support resuscitation

Duty of care and candour, Safeguarding, Equality, Diversity & Inclusion

- Legislation, policies and local ways of working about duty of care, candour, raising concerns, Safeguarding / protection from abuse, Equality, Diversity and Inclusion; what they mean, why they are important, how to promote them to others
- How discrimination can happen; how to deal with conflicts between a person's rights and a duty of care
- The signs of abuse, what to do if you suspect it, how to reduce the chances of abuse as much as possible

Person-centred care, treatment and support

- Why it is important to gain consent, even when it is difficult; how to undertake risk assessment in enabling a person-centred approach; why it is important to promote 'person-centred care, treatment and support'
- Why it is important to encourage people to be actively involved in their own care or treatment; why it is important to give people choices about their care and to treat people as valuable and unique
- Why safety and clinical effectiveness are important; the importance of managing relationships and boundaries with service users

Communication

- Why it is important to promote effective communication at work; how to communicate with people who have specific language needs or wishes; how to reduce communication problems and respond to complaints; techniques for difficult situations, local guidelines for dealing with abusive behaviour
- How verbal and non-verbal communication may relate to an individual's condition
- Legislation, policies and local ways of working about handling information; why it is important to record and store information securely and confidentially and support others to do so; e-safety; the audit process and how it relates to your role

Personal, people and quality improvement

- Your responsibilities and duties; the limits of your competence and authority; that of those you supervise; the values of your organisation; legislation, standards, policies, protocols you should adhere to; why it is important to work in ways agreed by your employer
- How to seek feedback, reflect on your actions, how to evaluate your work and create a Personal Development Plan
- The importance of working well with others, your own health, wellbeing, resilience and that of colleagues; who or where to go for help and advice about anything related to your work or people you support; how to supervise others
- Behaviours expected from a role model; the principles of training and mentoring
- The importance of gathering service user views; ways to identify and escalate opportunities to provide a better or more effective service

Health, safety and security

- How to promote health and safety at work; what to do in situations that could cause harm; how to handle hazardous materials
- Move and position people, equipment or other objects safely in line with agreed ways of working
- The meaning of risk /risk assessment; how to recognise risk or hazards, undertake risk assessment, escalate where appropriate, operate safe systems of work
- The importance of a clean workplace; legislation, policies and local ways of working for the prevention of infection; personal hygiene, handwashing; the right use of PPE : gloves, aprons, masks; how infections start and spread; how to clean, disinfect and sterilise

Assist with clinical tasks

- Your role in deliveries including cleaning, filling and maintaining the birthing pool to correct temperature, maintaining the birthing environment and resources
- Possible signs of mental ill health and depression and the potential impact of pregnancy, labour, delivery or parenthood
- Your role in antenatal and postnatal health education
- The range of physiological states that can be measured including body temperature, height, weight, blood pressure, pulse, urinary output, breathing rate, oxygen saturation, and blood sugar levels; the normal ranges and how to report deviations; the types of equipment used for measuring physiological states in adults and how to check they are in working order, as well as recording all findings accurately
- How to take and test venous and capillary blood and other specimens
- Ways to position individuals for ultrasound scanning
- How to lay up trolleys for instrumental deliveries, opening packs, gathering equipment and disposal; how to support the midwife to prepare women for caesarean section and care for them post-operatively, including measuring for TED stockings, providing a gown, positioning them and undertaking physiological measurements
- First aid and resuscitation techniques for babies
- How to wash, dress and support an adult to use the toilet; ways to manage situations in which the adult cannot do these things for themselves; reasons why a urethral catheter is in place and the importance of regular monitoring

Assist with caring for babies

- Local security procedures
- The range of physiological states that can be measured including body temperature, weight, breathing rate, heart rate and oxygen saturation; the normal ranges and how to report deviations; the types of equipment used for measuring physiological states in babies and how to check they are in working order
- The routine health baby observations including cord care, eye

care, oral hygiene, checking stools and recognising and reporting potential signs of neonatal jaundice

- Ways to care for the nutritional needs of babies including supporting women to breastfeed, the position and comfort of breastfeeding: the position and attachment of baby; how to use a breast pump or hand express; how to assist with syringe feeding of expressed milk; how to sterilise equipment; cup and bottle feeding, the preparation of formula milk as necessary

Support mothers and birthing partners

- Ways to interact and care for babies including promoting skin to skin contact
- How to provide advice and information on feeding, parenting skills, family adjustments, nutritional health, smoking cessation and promoting the overall health and wellbeing of mothers and babies; ways to support bereaved families and where to direct families to for further advice and support; how to assist with photographing and creating memories as required

Programme content

The skills you will learn to apply in your work

Health and wellbeing

- Assist registered healthcare practitioners with clinical or therapeutic tasks; follow care plans; notice and report changes
- Gather evidence to assist in obtaining a client history, review health-related data and information
- Promote physical and mental health and wellbeing, providing opportunistic brief advice on health and wellbeing
- Assist with an individual's overall comfort, identify and respond to signs of pain or discomfort
- Recognise issues and deteriorations in mental and physical health, report and respond appropriately, supporting others to do so
- Recognise limitations in mental capacity and respond appropriately
- Perform basic life support for individuals

Duty of care and candour, Safeguarding, Equality, Diversity & Inclusion

- Follow the principles for Equality, Diversity & Inclusion
- Implement a duty of care and candour
- Safeguard and protect adults and children; promote the principles to others

Person-centred care, treatment and support

- Demonstrate what it means in practice to promote and provide person-centred care, treatment and support by obtaining valid consent, and carrying out risk assessments
- Work in partnership with the individual, their carer, families and the wider healthcare team
- Promote clinical effectiveness, safety and a good experience for the individual

Communication

- Demonstrate and promote effective communication using a range of techniques
- Observe and record verbal and non-verbal communication

- Handle information (record, report and store information) in line with local and national policies, keep information confidential and support others to do so; take part in audits

Personal, people and quality improvement

- Act within the limits of your competence and authority; ensure that anyone you supervise acts within theirs
- Take responsibility for, prioritise and reflect on your own actions, work and performance; maintain and further develop your own skills and knowledge, participate in appraisals
- Work as part of a team, seek help and guidance when you are not sure, escalate concerns in a timely manner to the correct person; support or supervise colleagues as required, delegate well-defined tasks appropriately
- Act as a role model; mentor peers; deliver training through demonstration and instruction

Health, safety and security

- Maintain a safe and healthy working environment, take appropriate action in response to incidents or emergencies, following local guidelines
- Move and position individuals, equipment and other items safely
- Undertake risk assessments
- Use a range of techniques for infection prevention and control, e.g. waste management, spillage, hand washing, use of Personal Protective Equipment (PPE)

Assist with clinical tasks

- Assist the maternity team with delegated clinical tasks
- Recognise any deterioration in mental and emotional wellbeing and respond appropriately
- Assist the midwife with teaching bathing, breastfeeding, parenting skills and post-natal exercises
- Undertake a range of physiological measurements using the appropriate equipment
- Obtain and test venous and capillary blood samples and other specimens
- Assist other practitioners with performing ultrasound scans
- Provide support to other practitioners with instrumental deliveries
- Carry out emergency First Aid and assist midwife with neonatal resuscitation
- Support women with general personal hygiene, carrying it out for those unable to, including care for women with urethral catheters

Assist with caring for babies

- Identify baby and provide wristband or label in line with local security procedures
- Undertake a range of physiological measurements on babies using the appropriate equipment including weight, temperature, breathing rate, heart rate and oxygen saturation
- Care for the physical needs of babies undertaking routine healthy baby observations and reporting any abnormalities
- Support parents to meet the hygiene and nutritional needs of baby

Support mothers and birthing partners

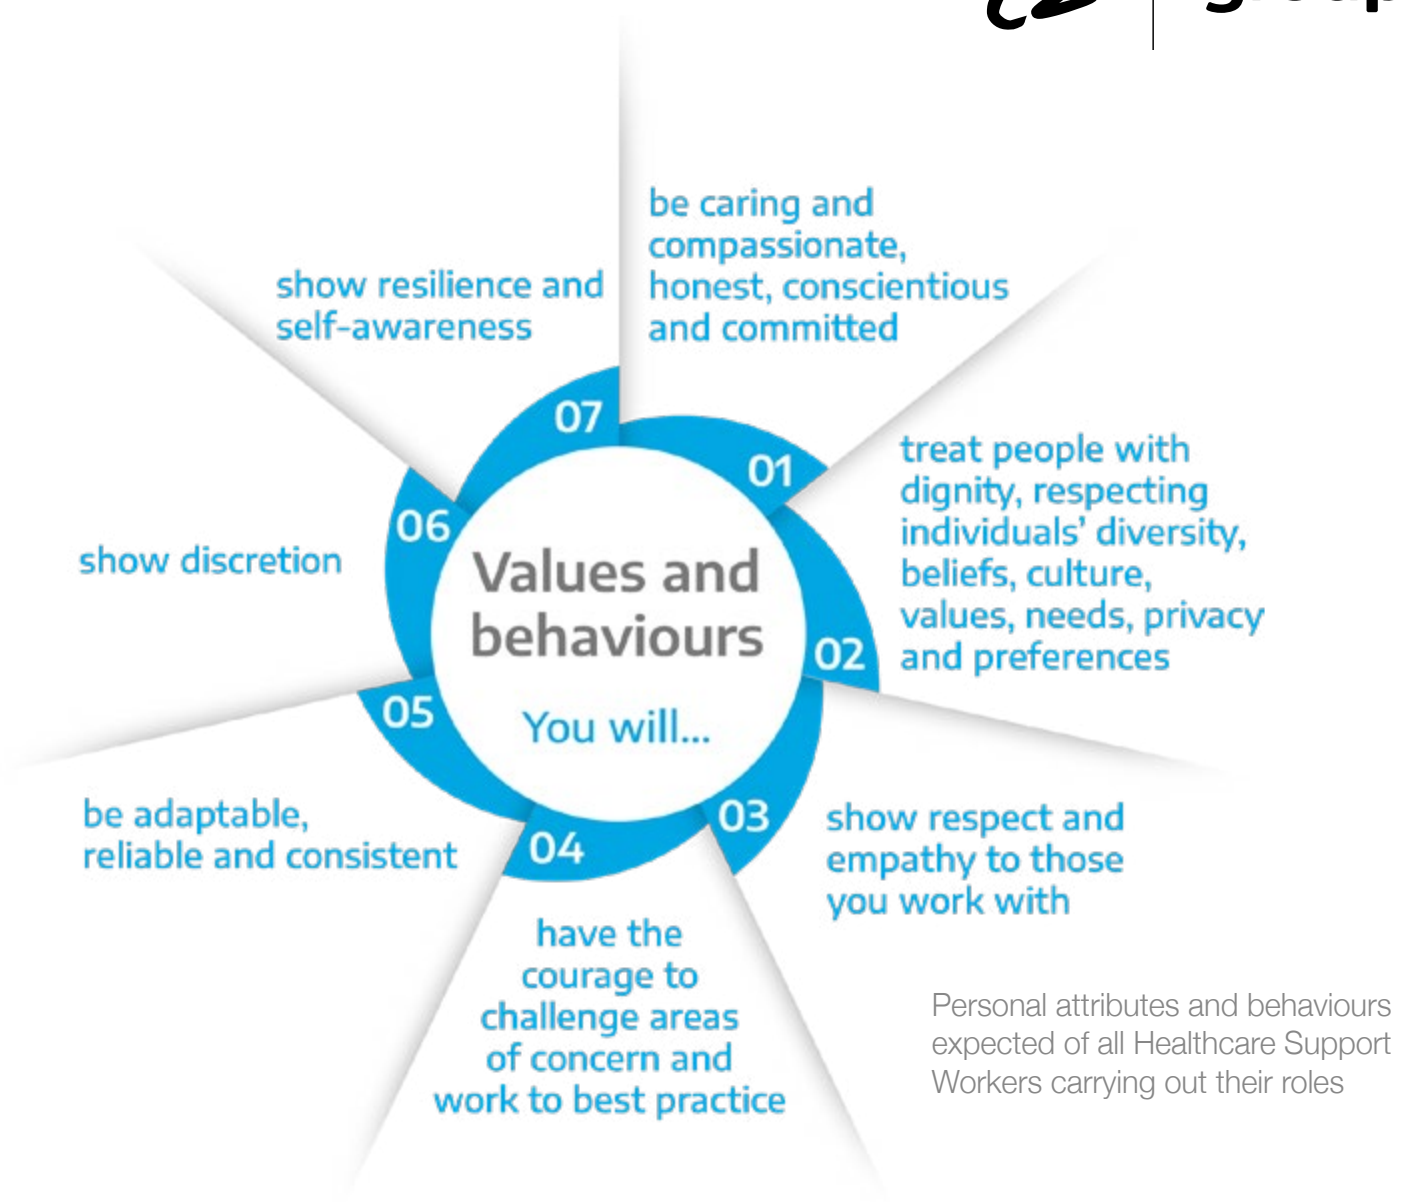

- Support parents/carers to interact with and care for their newborn baby
- Provide reassurance to mothers and birthing partners, working in partnership with families to support individuals

End Point Assessment

Once you, your manager and your tutor feel you are ready you will be put forward for End Point Assessment. This will be with an external End Point Assessment Organisation of your choice.

The End Point Assessment will include multiple-choice test, observation of practice and a professional discussion. Your dedicated tutor will fully prepare you throughout the programme to ensure you have the confidence and necessary skills to meet the requirements of End Point Assessment.

What Ofsted said about our programmes at our last inspection:

“Learners make rapid progress in developing their care skills, with many showing significant improvements from their starting point in a very short space of time”

Care, its what we do
