Level 5 Diploma in Leading and Managing an Adult Care Service

(Advanced Learner Loan)

The Level 5 Diploma in Leading and Managing an Adult Care Service is aimed at leaders and managers working in a range of adult care settings, such as residential services for older people and people with disabilities, domiciliary care services, day services, respite services and community-based services.

The qualification can be used both within and outside of an apprenticeship standard for learners who work in Adult Care in England, in the following roles: Registered Managers and Managers.

The qualification may also be suitable for Assistant Managers and Deputy Managers, provided you are able to demonstrate the knowledge and skills required at Level 5 and your job role enables you to demonstrate these skills through real work activities.

How we deliver this Diploma

This qualification is delivered on a remote basis by your own dedicated expert Health and Social Care tutor.

They will meet with you every month (online) to provide teaching and training to help you develop new knowledge and skills and guide you through the programme.

Each month you will also attend a workshop. Workshops give you the opportunity to explore your topic in more depth, take part in discussions, and apply your learning to real care situations.

They will on occasion visit you in your workplace to assess your competence by observing you applying the new skills. During your remote meetings, your tutor will help you develop a portfolio of evidence to prove you have met the requirements of the qualification.

Duration

- 16 months

Qualifications included

- City and Guilds Level 5 Diploma in Leading and Managing an Adult Care Service

What Ofsted said about our programmes at our last inspection:

Learners and apprentices develop their skills to meet exacting sector standards. In many cases, the level of skills gained exceeds the requirements of their qualifications; this is particularly the case with health and social care programmes.
